GENERAL

The governing body of Whitegrove Primary School recognises that the ultimate responsibility for the implementation of the Health and Safety Policy within the school is theirs. The governing body notes the provisions of Section 3(1) of the Health and Safety at Work, etc Act 1974, which states that it is the duty of every employer to conduct his or her undertaking in such a way as to ensure, so far as is reasonably practicable, that persons not in his or her employment who may be affected by it are not exposed to risks to their health and safety. The governing body accepts that it has a responsibility to take all reasonably practicable steps to secure the health and safety of pupils, staff and others using the school premises or participating in school sponsored activities. It believes that the prevention of accidents, injury or loss is essential to the efficient operation of the school and is part of the good education of its pupils.

The aim of the governing body is "To provide a safe and healthy working and learning environment for staff, pupils and visitors."

The arrangements outlined in this statement and the various other safety provisions made by the governing body cannot prevent accidents or ensure safe and healthy working conditions. The governing body believes that only the adoption of safe methods of work and good practice by every individual can ensure everyone's personal health and safety. The governing body will take all reasonable steps to identify and reduce hazards to a minimum. However, all staff and pupils must appreciate that their own safety and that of others also depends on their individual conduct and vigilance while on the school premises or while taking part in school-sponsored activities.

This Health and Safety Policy Statement and related arrangements for implementation are not a substitute for the above-mentioned legislation, Bracknell Forest Borough Council and Education Department policy safety guidelines, but are complementary and have been formulated to reflect our schools' own needs.

This statement supplements the Health and Safety Policy Statements written by Bracknell Forest Borough Council and by the Education Department. Copies of these statements, policies and the Bracknell Forest Borough Council Health, Safety and Welfare Manual of Guidance are available online.

HIRERS, CONTRACTORS AND OTHERS

When the premises are used for purposes not under the direction of the Headteacher then the principal person in charge of the activities for which the premises are in use will have responsibility for safe practices as indicated in paragraph 3.0 of this document. The Headteacher or the co-ordinator will seek to ensure that hirers, contractors and others who use the school premises conduct themselves and carry out their operations in such a manner that all statutory and advisory safety requirements are met at all times.

When the school premises or facilities are being used out of normal school hours for a school sponsored activity then, for the purposes of this policy, the organiser of that activity, even if an employee will be treated as a hirer and will comply with the requirements of this section. When the premises are hired to persons outside the employ of the governing body, it will be a condition for all hirers, contractors and others using the school premises or facilities that they are familiar with this policy. That they comply with all safety directives of the governing body and will not without prior consent of the governing body:

- introduce equipment for use on the school premises;
- alter fixed installations;
- remove fire and safety notices or equipment;
- take any action that may create hazards for persons using the premises or the staff or pupils of the school.

All contractors who work on the school premises are required to ensure safe working practices by their own employees under the provisions of the Health and Safety at Work etc Act 1974 and must pay due regard to the safety of all persons using the premises in accordance with ss.3-4 of the Health and Safety at Work etc Act 1974.

In instances where the contractor creates hazardous conditions and refuses to eliminate them or to act to make them safe the Headteacher will take such actions as are necessary to prevent persons in his or her care from risk of injury.

The governing body draws the attention of all users of the school premises (including hirers and contractors) to s.8 of the Health and Safety at Work etc Act 1974, which states that no person shall intentionally or recklessly interfere with or misuse anything which is provided in the interests of health, safety or welfare in pursuance of any of the relevant statutory provisions.

STAFF CONSULTATIVE ARRANGEMENTS

The governing body, through the Head teacher, will make arrangements for the establishment of a safety working group by incorporating agenda items on health and safety matters into existing consultative groups and governance committees. Representation on this working group will cover all appropriate areas of work or special hazards. As a group, the nominated safety representatives of each accredited trade union or staff association is very welcome and encouraged to attend.

CODES OF PRACTICE, SAFETY RULES AND GUIDANCE NOTES

In consultation with the governing body (where appropriate) and taking into account the requirements of this statement the safety committee will approve (where necessary) codes of practice for the observation of safety requirements in school.

From time to time the Department for Education and Employment (DfE), UKHSA, Health and Safety Executive (HSE), Director of Public and Environmental Services, Director of the Education Department and other regulatory or advisory bodies will issue codes of practice or guidance notes on particular topics to assist head teachers and others who are in control of educational premises. Normally such codes will be incorporated into the health and safety policy and procedures. If the Headteacher considers the inclusion of all or any such documents into this policy to be inappropriate, he or she will be required to demonstrate to the satisfaction of the governing body that he or she has already introduced codes of practice and methods of working which achieve a similar or higher standard of health and safety.

RISK ASSESSMENT

The Headteacher in consultation with the governing body will ensure that a risk assessment survey of the premises, methods of work and all school-sponsored activities is conducted annually (or more frequently, if necessary).

This survey will identify all defects and deficiencies, together with the necessary remedial action or risk control measures. The results of all such surveys will be reported to the governing body.

EMERGENCY PLANS

The Headteacher will ensure that an emergency plan is prepared to cover all foreseeable major incidents which could put at risk the occupants or users of the school. This plan will indicate the actions to be taken in the event of a major incident so that everything possible is done to: • save life • prevent injury • minimise loss

The above sequence will determine the priorities of the emergency plan.

The plan will be agreed by the governing body and be regularly rehearsed by staff and pupils.

The result of all such rehearsals will form part of the regular risk assessment survey and the outcome will be reported to the governing body.

FIRST-AID

The arrangements for first-aid provision will be adequate to cope with all foreseeable major incidents.

The number of certificated first-aiders will not, at any time, be less than the number required by law.

At the discretion of the governing body other staff will be given such training in first-aid techniques as is required to give them a basic, minimum level of competence.

This level will be agreed by the governing body after seeking appropriate advice. The number of such trained but uncertificated first-aiders will be determined by the governing body as that being sufficient to meet the needs of all foreseeable circumstances.

Supplies of first-aid material will be held at various locations throughout the school. The Headteacher will determine these locations. They will be prominently marked and all staff will be advised of their position. The materials will be checked regularly and any deficiencies made good without delay

Adequate and appropriate first-aid provision will form part of the arrangements for all out of school activities.

A record will be made of each occasion any member of staff; pupil or other person receives first aid treatment either on the school premises or as part of a school-related activity.
